

2016 REVALUATION PHOTOS AND INSPECTIONS

I have a vendor taking photos of various properties throughout the town as a part of the 2016 Revaluation process. We update photos which are attached to our ProVal database that assists emergency personnel and taxpayers throughout the year. This data is also online under "view your property record card." Changes such as additions, siding, newer updates or demo work are all included in this process. Mangun & Associates is assisting us in this effort. I have issued my business card to Ms. Laurie Mangun to be issued to anyone stopping her or inquiring as to her assignment.

She is driving a 2016 white Acura MDX 4 door SUV with registration 524RNW. Located on the passenger door is a magnetic sign saying " Assessor Office." If any calls come in, please be aware of this process. If you have any questions, please don't hesitate to call me at your convenience. Generally speaking, the vendor takes the photo from the street, but if folks are in the yard she introduces herself and states her mission.

Thank you for your consideration ,

Dave Wheeler
